

SX Virtual Link For Apple OS X El Capitan (OS X 10.11) and Onwards

Please note the following when you use SX Virtual Link with Apple's OS X El Capitan (OS 10.11) or later: The SX Virtual Link supports each version of MAC OS X 10.11 or later in the following way:

MAC OS & macOS Version	Status
MAC OS X El Capitan 10.11 ~ 10.11.1	× ※1
MAC OS X 10.11.2 ~ macOS Sierra 10.12.0	○ ※2
macOS Sierra 10.12.1 or later	○

※1: Not supported because of the MAC OS X specification restrictions.

※2: Devices confirmed to be supported are keyboards, mouse, and storage devices only.

Please consider updating the OS when you use the virtual link software to macOS Sierra 10.12.1.

You can see supported devices in the list below:
